OUR RECENT INTRODUCTIONS

- Hoosier Glory, I. D. (1935)**—Another new break in the ever changing type of the Dahlia, both in bush and flower formation. - Hoosier Superba, I. D. (1935)**—A pleasing shade of delicate pink. Not a dead color as is general with most light pinks, but a very lively and sparkling pink. Long cane stems, and a bloom, that although it is old and ready to throw away, never sheds its petals. An excellent cut flowerPer root **5.00**
- Hoosier Nights, I. D. (1934)**—Color, as the name implies is almost black, being a deep velvety maroon red. Truly a novelty.....Per root **3.50**
- Hoosier Radiant, F. D. (1934)**—This monster bloom fairly glistens, both in the sun and under artificial light. Color, bright golden apricot with copper shading on the outer edge of the petals. Excellent cut flower on very long stems, also fine for exhibition.....Per root **2.50**
- Hoosier Triumph, I. D. (1934)**—A pure clear yellow, without any traces of other coloring, either shadings are markings, as with most yellows. Large flowers of good keeping qualities on nice stems.....Per root **2.00**
- Mrs. Ada Peters, F. D.**—Salmon pink with golden center and rays, or flashes of gold running out through the salmon, resembling the setting sun. A sport of Jersey's Beauty, and a good onePer root **.50**
